Electrical & Instrumentation Technician

As a Electrical & Instrumentation Technician, your responsibilities for ecological solutions will involve:

- Supporting the Instrumentation Supervisor (maintenance) to ensure all the Instrument system, control and component of equipment and machinery runs smoothly and reliably of an integrated Hazardous Chemical Waste Treatment Facility and related infrastructure.
- Performing daily preventative maintenance and troubleshooting on plant-wide electrical and instrumentation systems. Installation, Configuration, calibration and troubleshooting of PT, DPT, LT, TT and Mass flow meter.
- Experience with electrical systems such as schematic, SLD, Layout, Control wiring drawing of MCC, DB lighting boards, soft starters / drives, earthing and lighting layouts.
- Hands on experience in BMS with HVAC, MV and LV Electrical systems.
- Conduct of inspection, testing and repair of commissioning equipment on Instrument system, control and component under the maintenance team.
- Condition monitoring and predictive maintenance of critical instruments and take corrective actions to avoid breakdown.
- Having good knowledge in megger test, PI test and gas detectors.
- Safety is a core value at Veolia, and a pre-condition for employment. You are expected to uphold the Veolia Always Safe rules and set an example to all colleagues in your daily work routine.
- Ethics and compliance are two areas where our rules and our standards are strictly non-negotiable. You are expected to stick to ethics and compliance rules and standards which ultimately mean doing your job properly and conducting our business like true professionals, whatever our missions and our place in the Group.

The required criteria to fulfill these qualifications are:

- Diploma in Control & Instrumentation or equivalent is an advantage.
- Prior experience in electrical and instrumentation in Industrial plant
- Experience in DCS PLC & CMMS is an advantage.
- Ability to work weekends, holidays and respond to callouts on a non-routine basis.
