Veolia group is the global leader in optimized resource management. With over 171,000 employees worldwide, the Group designs and provides water, waste and energy management solutions which contribute to the sustainable development of communities and industries. With its three complementary business activities, Veolia helps to develop access to resources, preserve available resources, and to replenish them.

Through our comprehensive expertise, we are able to develop tailored services for governments, businesses and industries. Our one-stop customized solutions improve operational, financial and environmental performance, making Veolia a reliable partner in our clients' sustainable growth.

## **Driver Class 4 / 5**

This position is responsible for picking up and delivering chemical wastes in approved containers; loading and unloading drummed waste material; and hooking up sets of trailers.

### **Job Descriptions:**

- Performs timely and safely collections and deliveries of chemicals and drums.
- Follows route as per Head of Logistics (route optimization).
- Checks on related documents, and ensures that the right quantity or order is collected or delivered.
- Conducts pre-inspections of the inspections of the vehicle before and after operating the vehicle.
- Maintains and cleans the vehicles after use.
- Maintains good relations between company and the customer.
- Act as a service quality ambassador for Veolia.
- Conducts house-keeping of the vehicle.
- Assists in Emergency Response including containment of spills and clean-up.
- Responsible for offloading of goods in designated areas including segregation of the incoming waste.
- Familiar with Government Regulations in Hazardous Waste Collection.
- Strong and evident EHS culture.

### **Job Requirements:**

- Possess valid Class 4 or 5 Driving Licence.
- Skilled to drive in a congested chemical plant and at various clients sites.
- Have confidence in reversing a truck and trailer in narrow off-loading bays.
- Able to learn the safe handling of various chemical waste.
- Have a strong safety conscious to report near-miss.
- Complete tasks to a high standard.
- Willing and able to assist in performing overtime when required.
- Ideally you have HTDP HAZMAT.
- Worked in a chemical warehouse or Jurong Island and forklift driving is a plus but not necessary.
- You will work for a company that values their staff.
